ors in a mass, except the most highly educated officers, attribute every change of weather to the moon. Why Nobody knows. Such like prejudices must be accepted, and their truth taken for granted, without discussion. There is no want of instances. It is exactly because prejudices are beyond the reach of dis cusmon that it is so difficult to brig them to reason Natural philosophers have perfectly explained the phenomena attributed to La Lune Rousse, the Red Moon, which are really caused by the state of the atmosphere. Gardeners, nevertheless persist in making red mocu (the lunation between the paschal and pentecostal moons) responsible for the morning frosts which frequently occur at that sesson. But the ancients never entertained the idea that the moon s phases were the esure of changes in the weather, it was Jupiter a privilege to assemble the clouds and to dart the thunderbolts The lucky and unlucky days of the lunar month belong to astrology and not to meteorology Bouvard, Arago, and many others have proved, by long series of observations

It was feared that the long season of wet weather which prevailed up to a week ugo had rusted the wheat, and that the severe storms had generally injured all the crops, but such is not the case. There is no rust whatever. Corn is somewhat backward, but there is a good stand and an immense acreage tye harvest commences one week benee, parley ten days later, and wheat about July 20. A fair estimate of the wheat yield will be from twenty to twentyfive bushels per acre. If we have favor able weather for maturing crops, the yield will be the largest ever known.

OMARA, NES., June 22 .- The Republicin to morrow morning will publish crop reports from all counties on the line of the Union Pacific and Omaha and Republican Valley Railroads. It was feared that the long season of wet weather which prevailed up to a week ago had rusted the wheat, and that the severe storms had generally injured all the crops, but such is not the case. There is no rust whatever. Corn is somewhat backward, but there is a good stand and an immense acreage rye harvest commences one week bence, parley ten days later, and wheat about July 20. A fair estimate of the wheat yield will be from twenty to twenty-flve bushels per acre. If we have favor able weather for maturing crops, the vield will be the largest ever known.

Washington, June 26 .- Ex Governor John C. Brown, of Tenn., before leaving Washington, responded to the letter of Secretary Sherman returning the draft forwarded by him to the department in payment of his (Brown's) share of the Louisiana commission's expenses, again enclosing the draft which he said he feels constrained to do frem a sense of duty to himself and the parties liable for the amount expended

The belief is expressed that the secretary will retain the check and await ter, she dropped the matter. She had future action by Congress concerning seen Mr. Shellsheager once, but he was testy and shorr, and she got nothing commission.

It need hardly be stated that Gon. Grant is still the most popular man in his party. This is so obvious that a comparison of him with other promi next Republicans is superfluous, and if there he those who doubt the genuineness of the Republican sentiment in regard to him they will soon be colight-ened on the subject when he returns home. In fact, no Republican politi cian can hope to compete with the per sonal popularity of Grant.

(From the Clark Co. (III.) Exponent.) The enthusiasm that Gen Grant name creates wherever it is mentioned and the ovations accorded him by crowned heads, of church and stare, and by municipalities everywhere in the Old World, is only equalled by the enthusiasm awakened among the American people whenever he is suggested as the standard bearer of the Republicans in the presidential campaign of 1850.-Grant "is the coming man" to pilot us once more over the "slough of despond. THE PROCESSION. At about half-past nine the sound of music in the distance directed all eyes newed on this occasion toward the thoroughtares over which it was supposed that the procession would pass, and soon the long line of animal cages, headed by a magnificent band chariot, came in sight on North Main et , and passing! down over the old square turned east on East Main to Water bireet. where it turned north and made its way back to the exhibition grounds.

The street display was really one of the finest that ever appeared In Decatur, and carried out in every particular that the bills promised. The borses drawing the cages were all fine animals, in the best condition.

In an open cage was sealed the iton king, with three or four buge African lions seated by his side, with all the docility of kittens, and he was as unconcerned as if he was putting a favorite dog-Another part of the procession particu iarly worthy of special notice was the cage drawn by six comets, on the top of which was mounted an elephant in charge

of his keeper The six elephants on foot, were also another feature of the free show, and ranging as they did in size, from the huge monster, that led the van, down to the petite baby elephant, which brought up the rear of these animals, alone furnished an exhibition well worthy the price of admission to the test

Bringing up the rear of the procession was the calliope, which played several tunes with great precision and correct DESH

In the rear of this was a most novel ad vertising outfit, of which "Cheap Charley" and Mr. Geo. P. Blume, the Singer sewing machine agent, were the promietors. This curious device furnished the boys with a heap of fun, and the general attention be secured in fine condition. The quality which it attracted must have made it a The crowd on the streets and walks

was simply mainense, and it is doubtful whether ever Barniiu drew a bigger crowd to Decatur than was here to day. The fine appearance of the street show deter mined everybody to see the "true inward ness' of the concern, and as soon as the doors opened in the afternoon the crowds given, and before the hour arrived for the performance to begin the seats of the crowd passed through the compartment containing the number they were treated to one of the finest exhibitions in this line the variety as great as that of any menugerie ever showing in this city. The per formances in the ring were also in all respects first class, being particularly free from anything approaching uniquelty, and were such as the most fasticious cruit not reasonably complain of

We prosume that the attendance at the evening exhibition will be even larger than that of the afternoon

though the Sella Brothers cortiquely Bester mother visit, the universit still facilish given this time will incure thin a Parge promit

THE MASS MEETING -The temperance ntesting at the court house was largely attended on Maturday night, and the audi ence was well entertained by an able ad dress from Mrs. Carmean. The lady spuire largely from her own experience of the evils of intemperance is illustrated in her own family. At the conclusion of her remarks Capt. Post addressed the au Esq., also made some stirring remarks -Boveral uner algnem were obitelatel Softhe pilder, and the meeting may be endid ered a grand success

BRONKO THE PLESSE IN THE CALABOORE -- On Saturday a countryman came to town and got on a "bender." THE GREAT THINPHART SHOW.

The Bells Beothers' immense menageric and circus came to town yesterday morning, and repaired at once to the exhibition ground on North Main street, where the tents were immediately pitched, and by noon everything was in order, so that the men had the afternoon of Sunday and the night for rest. During the day yesterday the ground where the tents are was visited by hundreds of people, and the extent of the cauvas, and the good condition in which the horses and the general outfit of the concern are kept, showed that the proprietors were running a successful

This morning as early as six o'clock people from the country began to flock ato town-some arriving by the early mins, and others coming in wagons—so that by eight o'clock the sidewalks were affve with people, and every available bitching place for teams was occupied -As usual on such occasions, baby carriages Ogured prominently in the crowd, and humanity at all points convenient for observation watching for the appearance of the grand street demonstration. THE PROCESSION.

At about half-past nine the sound of music in the distance directed all eyes newed on this occasion toward the thoroughfares over which it was supposed that the procession would pass, and soon the long line of animal cages, headed by a magnificent hand chariot, came in sight on North Main et . and passing, down over the old square turned east on East Main to Water street, where it turned north and made its way back to the exhibition grounds.

The street display was really one of the finest that ever appeared in Decatur, and carried out in every particular that the bills promised. The horses drawing the cages were all fine animals, in the best

In an open cage was seated the iion king, with three or four buge African lions seated by his side, with all the docillay of kittens, and he was as unron cerned as if he was petting a favorite dog Another part of the procession particu iarly worthy of special notice was the eage drawn by six consels, on the top of which was mounted an elephant in charge

The six elephants on foot, were also another feature of the free show, and ranging as they did in size, from the huge monsior, that led the van, down to the petite baby elephant, which brought up the rear of these animals, alone furnished an exhibition well worthy the price of admission to the tent

Bringing up the rear of the procession was the callione, which played several tunes with great precision and correct

In the rear of time was a most novel advertising outfit, of which "Cheap Charles" and Mr. Geo. P. Blume, the Singer sewing machine agent, were the proposetors. This curious device furnished the boys with a heap of fun, and the general attention be secured in fine condition. The quality which it attracted must have made it a The crowd on the streets and walks

was simply immense, and it is doubtful whether ever Barnuu drew a bigger crowd to Decatur than was here to day. The fine appearance of the street show deter mined everybody to see the "true inward ness' of the concern, and as soon as the doors opened in the afternoon the crowds given, and before the hour arrived for the performance to begin the seats of the water will dansed attendance on the show amphitheatre were well filled. As the crowd passed through the compartment containing the number they were treated to one of the finest rabibitions in this line to bring a few backets of water for their that has ever visited Decatur, the specimothers at home, or spite a little kindling mens all being of the highest order, and the variety as great as that of any mennyeric ever showing in this city. The performances in the ring were also in all respects first class, being particularly free from anything approaching uniquelty, and were such as the most fastidious cruit not rescondig complain of

"The immortal J N." is in the city, and, in spite of the croakings of the ignorant and skeptical, is still philanthropl cally desoting himself to the cause of truth, with a heroism worthy of the man tyrs of old. Prejudice and a spirit of unbelief in his grand mission and unequaled powers have no effect upon him, and he nobly goes on in his work of humanity, taking upon bimpelf the prossure that would otherwise restlike an inclubus upon the people, and gladly suffering mar tyrdom for their sake J N. is the grand philosopher, the disinterested humanita man of this age, and those who desire to advance the cause of truth will be afford ed an opportunity of hearing him at the court house on Friday evening next, on which occusion he will lift the veil and reveal to a stubborn and ignorant world the undying principles of true philosophy. When the bile is diverted from its always the case in liver complaints, it ceases to be a healthy accretion, and be сомен в розвов. Its abnormal presence in the circulation and stomack is indicated by the suffusion of the skin with a hideous saffron tinge, by headaches, vertigo, nausea, pain in the right side and under the right shoulder blade, by Indi gestion, obstruction of the bowels, and Stomach Bitters, which by relaxing the bowels, promotes the escape from the Bloner, Decatur, III. circulation of bilious impurities, besides rendering the action of the liver regular, and removing every trace of dyspepsia. This pleasant and purely vegetable antibillious medicine is not only infinitely more effective than any form of mercury, but is on account of its freedom from hartful properties, infinitely to be pre-

forred to that polympras drug.

June is freed with:

Dux't no ir, Boys — The limbt of catrying concealed weapons is getting to be rather common among how from fifteen to twenty years of age. The habit is a very bad and dangerous one, and will be sure to get those who practice it into trouble Boys who never go in bad company have no occasion to use kleadly weapons, and the (not that a young man keeps a revolver to his pocket, is a pretty sure sign that be sometimes gues where he has no right to be Boys, leave the revolver at house, keep clear of bad company, conduct yourselves in an orderly manner, and you are all right. That man who is scrupulously polite and respectful to all women in public limit habitually saves coarse manners, for his own wife but habitually saves course manners, only an impostor The young man who oth his hair, puts sweet odors upon his pocket handkerchief and bows with charming elegance to Viss Arabella Spriggins and her lady friend, and goes nome to sneer at his mother, disobeys her wishes, and treats her with familiar discourtesy, is a pinchbeck imitation only of a gentleman. Genuine good manners and gentle breeding should be gin at home. As a rule, the men in a community who are the most trusted are the best men at home. When a man opens his front gate, only to meet his wife s face at the door radiant with pleasure, and hears the shout from the eager children "Pa is coming," it is

A SURE RULE.

New Britain township Bucks county Pa, contains an eccentise old farmer by the name of Elias Black, who believes in keeping everything on his place. He has not sold any hay for years He never thrashes more grain than he can use, and the rest is allowed to stand in the stacks for mice and vermin to feed on Our field of about four acres is

literally covered with stacks, some of them fully fifteen years old Over 200 stacks may be counted on the place. It is the most novel sight over witnessed on a farm to see hundreds of stacks all closely huddled together, reminding one of the pictures of an Indian lodge or an African kraal

WHY THE HAIR FALLS OUT. AND HOW TO RESTORE ITS STRENGTH AND Coron Bach hair besecreted by a little vest-ch or gland, the latter being nourished by a small blood vessel. As long as these blood vessels furnish sufficient cocouragement the hair will continue to grow, but if from discuse or other cause they become torpid or obstract of, the hair with necessarily become dry and fall off. It is here the wonderful virtues of I under Hair-Color Restorer's are manifested, as its tenic properties excite these hair follields to increased neticity and completely restore the sessip to a healthy condition, and a fau growth of hair in its natural youthful color is during qualities, London Bair-Color Restoror to the most cleanly and insting of all hair dressings making it indispensable on the follet of every lady and gentleman. AN ASTONISHING FACT.

A large proportion of the American people are to day suffering from the effects of Dyspepsia or disordered liver the result of these diseases upon the nasses of intelligent and valuable people is most alarming, making life actually a builden instead of a pleasant i vatern e of enjoyment and usefulness as it ought to be. There is no good reason for this life. you will only throw usade prejudice upd skeptelsm take the advice of Druggests and your friends, and try one builde of Citen's August Flower your speeds in hefescertum Millions of heitles of this medicine have been given away to try its values with satisfactory results in every case. skin, the unatism and gott are all is he ad by this standard remedy. Completional blemishes are eradicated by it, and it in parts to the cuticle a pearly whiteness and relyety softness which greatly enhances the effect of female charms. Its southing, antiphilogistic action constitutes a princ remedy for sores, ulters, outs, sprains, scalds, brunes, and in fact every ubnor-mal condition of the cuticle attended by mal condition of the cutile attended by inflammation, swelling or itching Ladies moving in our best society speak of its beautifying properties in continuisation terms, and give it a decided preference to committe which merely conceal but do not, like Geers's by ta fer 80 arc, eradicate the defects of the complexion. The use of ointments for cruptive complaints is to be depreciated because of their hading a tendency to clog the porce and in some cases rather to aggravate than to remody the disease. They are, besides seldom thorough onough in their effects to prevent the recurrence of craptions of an inveternite type and have the disadvantage of soiling the linguistic field and the contrary, radically cures the diseases to which it is adapted and still further recommends used on account of its clean recommends itself on account of its clean recommends itself on account of its clean liness.
